been recently made, however, by Prof.

Gpano Island May Object to Schooner Whalen's Crew Going Ashore -- Captain Rosehill Prepared.

xBefore the Marcus Island fertilizer trade is firmly established some interesting developments may be looked for. unless things go more smoothly than

is now expected by those interested.

On Monday there will be a meeting of the members of the company own-ing the schooner Julia E. Whalen, brought down from San Francisco by Captain A. A. Rosehill the other day. The result of this meeting will determine the course of action to be taken in the matter of starting business on the far-away speck in the broad Pacific. He in tomorrow's parade by Wm. C. As things are now, Captain Rosehill Lyon, the bookseller. Watch for Advergeets to be ordered out of here on miral Dewey.

Wednesday next. With a Hawaiian and Samoan crew aboard, and a white mate, to say nothing of plenty of provisions, Captain Rosehill expects to sail direct for Marcus Island and there secure some four or five tons of samples of guano. He has no idea, this trip, of procuring a cargo of the stuff, as this would be out of the question without facilities on the island for conveying the fertilizer to the vessel. At present the only method of loading the guano aboard the ... aalen would be by the vessel's crew packing the stuff aboard in bags, an operation of which they would be likely to very

THE GOVERNOR'S TURN.

Former Governor Hoge Tyler of Vir-

ginia, whose term expired in December last, was especially generous in granting partions. For many of them he derived much pleasure in the gratiade of the unfortunates and often re ceived material for an amusing story, slight offense, who had convinced the governor that he had been sufficiently
